

### **Shropshire Hills Discovery Centre - Year 4**

Year 4 visited the Shropshire Hills Discovery Centre for a Geography trip linking to the topic of Misty Mountain, Winding River. Although it was an extremely wet day, the children had a wonderful time learning about the River Onny and how it has evolved over time. The leaders were very impressed with their knowledge and understanding of key terminology. They also explored an ancient exhibition, where they learnt a small amount about the Vikings, a topic that we are currently studying. The children were exceptionally well behaved and were a credit to the school.
